Software Development graduate with experience building web and mobile applications, seeking an entry-level developer role.

## Education

---

*Bachelor of Applied Science in Software Development*

*June 2025*

Bellevue College, Washington, GPA: 3.7

## Experience

---

*Software Engineer - Ace Rocket, Washington*

*January 2025 – September 2025*

Personalized online learning platform to help students prepare for the SAT, ACT, and AP math exams

- Built a user performance tracking system using JavaScript and Firebase, enabling personalized learning paths for students
- Designed and implemented daily practice plan logic to recommend questions based on student performance history
- Collaborated directly with the founder in a startup environment to prototype, test, and ship features for 150+ users

## Academic Projects

---

*Full-Stack Developer / Tech Lead - TiriVelo Pet Services, Canada*

*January 2025 – June 2025*

Capstone project – commercial cross-platform mobile application for pet booking services

- Lead the development using React Native, Typescript, PostgreSQL, and Supabase
- Managed global state with React Context API and TypeScript for scalable data flow
- Wrote strict type-safe functions to ensure responsible data handling and reduce runtime errors
- Built a responsive UI with React Native for both Android and iOS platforms

*Hospital Management System*

*June 2024*

A healthcare application that simplifies patient records, data analysis, and inventory for hospitals

- Developed using C# and .NET, implementing full CRUD operations for staff workflows
- Integrated MongoDB and SQL Server to store and access medical data efficiently

*Bike Parking*

*June 2024*

Crowdsourced mobile web app for locating and sharing bicycle parking spots

- Built with React.js for dynamic client-side rendering and UI updates
- Wrote JavaScript functions to curate nearby posts based on user's location to ensure a positive user experience
- Integrated Google Geolocation API to convert user addresses into accurate map coordinates

## Skills

---

**Languages:** JavaScript, Typescript, C#, C++

**Frontend:** React.js, React Native, HTML, CSS, Tailwind

**Backend:** Node.js, Express.js, .NET

**Databases:** PostgreSQL, SQL Server, MongoDB, Firebase, Supabase

**Cloud:** Google Cloud Platform, Azure

**Tools:** Git, GitHub, Jira, Postman, Linux CLI
